## Tracking exercise

**Article:** <https://www.mozilla.org/en-US/teach/smarton/tracking/>

**Video:** <https://episode1.donottrack-doc.com/en/>

Watch the video and Read the article then:

1. Explain in your own words what tracking is
2. Which data is collected?
3. What is your opinion about its ethical and social aspects?
4. How to avoid tracking? Give examples of browser configuration, browser plugin other software
